Auction Sales To-day.

J. P. DAVIES & CO., Auctioneers, will sell at 11 o'clock, on Port Street, Cows, Calves, Bulls &c.

Consolation of Bishop Seghers.

We have announced in previous issues that the Right Reverend Charles S. Seghers, Bishop of Vancouver Island, will be consecrated in the late Bishop Demers' church, on the 29th inst. We have to state now that arrangements are in progress which will ensure for the ceremony, one of a very imposing character, and already the clergy to take part have commenced to arrive in town. The Catholic church on that day celebrates the Feast of the Apostles St. Peter and St. Paul. Most Reverend F. N. Blanchet, Archbishop of Oregon, will be consecrator, and will be assisted by the Right Rev. A. M. Blanchet, Bishop of the late Bishop Demers' church, and Right Rev. H. L. D'Herbomez, Vicar Apostolic of British Columbia. Eight ecclesiastics arrived in town yesterday per the North Pacific; those belonging to the mainland of British Columbia will be consecrated by the Bishop, and with those resident in the city, there will be present, on the occasion, twenty seven clergymen of various grades in the Catholic Church. We shall be in a position to give further particulars in our next.

Arrival of the Douglas.

The Douglas arrived at her wharf yesterday at 5:30 p.m. from Nanaimo and Cowichan, with thirty-three passengers, a large number for this little vessel, two beef cattle, four calves, chickens, strawberries, from Burgoyne Bay, along with other produce. The settlements look cheerful and prosperous. On Wednesday, the Douglas towed the Shooting Star from Newcastle Island to the Douglas pier, to sail taking in coal, afterwards on same day towed the Wellington to sea, coal laden. The schooner Favorite was loading at Departure Bay, the only vessel there. Following is the passenger list: Captain and Mrs. Spaulding, two Sisters of Mercy, Mr. and Mrs. Dunsmead and two children, Mr. Bryden and two children, Mr. and Mrs. Evans, Mrs. Brennan, Mrs. Bremner, Mrs. Skinner, Mr. Fry, J. P., and Mrs. Randall, Messrs. Kinross, Boyd, and others.

Supreme Court.—Fisher vs. Holbrook et al.

This case came up for hearing yesterday at the Supreme Court, before Mr. Justice Gray. The plaintiff sued defendants for the sum of \$850, for services rendered as an accountant, &c. The evidence of the second witness for the plaintiff was heard, and at six o'clock, p.m., the Court rose, the case standing adjourned until this morning. Mr. Drake (Drake and Jackson) appeared for the plaintiff, and Mr. Robertson, Q.C., (Robertson and Johnson) for the defendant. The following gentlemen were special jury for the case: Robert Wallace, (foreman), R. Carr, W. Wilson, T. Wilson, P. McQuade, J. G. Norris, R. Harvey, T. Pagden.

The Late Trial.—We should have thought the Colonist would have been the very last to even breathe about the above, for the reason that it was strongly censured and condemned for the "ancient and unwarlike" character of the trial. Twelve honest intelligent jurymen, the bench, the prosecution, the defence, and four out of five journals published in the Province were all on the side of the justifiableness of the act of the Superior Court, and have brought in a verdict of guilty on the side of the Colonist.

Arrival of the Jarvis Party.

The above party, before announced in the Standard, arrived by the North Pacific, via Portland and Puget Sound. The gentlemen comprising the corps are: E. W. Jarvis, Chief of party, C. E. Perry, J. H. Gray and C. F. Hamilton, Assistants. They left Fort Vancouver early in the morning, arrived at San Francisco on the evening of the 20th, and sailed for Portland on the 21st, making the trip from the Red River to this city in about three weeks.

The Survey.—A party of surveyors under charge of Mr. Gansby, will leave here tomorrow morning for Howe Sound per the steamer Douglas. Mr. Marcus Smith will accompany them and the steamer will probably return here on the 10th inst.

Mechanics' Excursion.—Attention is directed to the steamboat excursion to Willamette Head, to-morrow, Coronation Day. There is a double inducement to pleasure seekers,—the beautiful scenery, and the trip is a comfortable steamer to a romantic part of the coast, and the satisfaction it should give the excursionists that they are helping a good cause,—a support of the Mechanics' Literary Institute.

Passengers.—The following additional were booked yesterday per Prince Alfred: W. London and wife, A. J. Smith, Geo. F. D. Simpson, Mrs. Chambers and child, Professor Loderley, T. McGlashan, E. M. Percival and wife, J. A. Hollister, N. Knott, W. Young, A. C. Fraser, John Harper, N. K. Overland, M. Wilson and wife, S. B. Potter, A. McLean, P. Tweed, John Rawley, John Maxton, D. West.

The Railway Loan.—The following is the correct rendering of the telegram published the other day: "Toronto, June 21.—The Mail, a Government organ, this morning says: 'We are informed on good authority, that a meeting of the directors of the Canadian Pacific Railroad has been called for the 4th of July, in Montreal, to ratify the agreement entered into with parties in England.'"

Wells, Fargo & Co.—By a notice in to-day's issue it will be seen that Wells, Fargo & Co. withdraw from the banking and exchange business in this city from and after the 15th July. Mr. F. G. Crockett, who will continue to act as agent of their express, will henceforth carry on this branch of the business in his own name.

Chartered.—Messrs. Welch, Rithet & Co. have chartered the Star of Jamaica to take a cargo of coal from Departure Bay to San Francisco, and thence with barley for Iquique, South America. She will be towed to the coal mine to-day by the Cariboo Fly.

From the Island.—The Fly with the Maria Charlotte in tow, lumber laden for South America, arrived down from Burrard Inlet yesterday afternoon. Mr. Wilson and three or four others were passengers per Fly.

The Sloop Repulse is reported having arrived at Honolulu, and may be expected to reach Esquimaux about the middle of July.

Collegiate School.

The prizes awarded at the annual examination of the Collegiate School, were distributed yesterday by the Bishop of Columbia, in the presence of a numerous assembly of parents and friends of the pupils. Before the distribution, the Bishop addressed the boys, congratulating them on the satisfactory report he had received from the Rev. the Principal, of their conduct and progress during the term just ended, and strongly urging upon them the importance and blessing of a Christian, as distinguished from a secular education, he with a few kindly and appropriate words, handed the prizes to the successful competitors. Addresses were afterwards delivered by Mr. Langley, Mr. Inala, the Rev. P. Jones, and the Principal; the latter of whom stated in his report, that the number now upon the books was 58, an increase of 40, at midsummer, in 1872, and the average attendance 54, as against 36 The school will re-open on Monday, August 11th. We append a list of the prize takers:

LAST NIGHT'S DESPATCHES.

SERIOUS FIRE AT PORT TOWNSEND.

Cholera Spreading in the Western States.

BILLIARD TOURNAMENT.

THE CROPS.

WASHINGTON TERRITORY.

EASTERN STATES.

WASHINGTON, June 26.—At 2:30 this morning the fire at Port Townsend was discovered to be developed in smoke issuing from every part of the building. An alarm was given and the citizens broke open the store, but the smoke inside was so impetuous and so intense that for some time it was impossible to locate the fire. Being in the centre of the most solid and valuable block of the city, the fire was a serious matter, and it was feared that it would spread to the other buildings. The stock in the building was insured for \$15,000 to \$20,000 in the Imperial, Liverpool, London and Globe, and Fireman's Fund. The fire is supposed to have been caused by a cat knocking down some articles from a shelf and igniting matches.

WASHINGTON, June 25.—The following is the official report of the condition of the wheat crop of winter wheat which is mostly harvested. Of 553 counties from which reports have been received, 292 are above average; 168 average, and 293 below the average. Of 300 counties reporting spring wheat, 163 are above average, 115 average, and 123 below average. The average of winter wheat is 1.13 bushels per acre, and of spring wheat 1.13 bushels per acre. The average of spring wheat is very largely increased, and especially in the Northwest. The usual promising indications of the crop of 1873 are at least equal to those of June, 1872, when the department estimated the prospective yield at 22,000,000 bushels. Subsequent conditions of the growth raised the first estimate of the year. Insect ravages, however, are reported in the spring wheat, indicating serious loss in some localities.

WASHINGTON, June 25.—There were 25 deaths from cholera to-day, of which 14 were white persons. Specials from Gallatin report the disease on the increase there.

WASHINGTON, June 25.—It has been ascertained in official quarters that some progress has already been made by the British Government in its arrangements for paying the Geneva arbitration award, part of the funds being already in this country in the form of five hundred bonds to be exchanged for gold, or after the 15th of September, payment falling due in that month.

NEW YORK, June 25.—In the Walworth case Assistant District Attorney Rollins opened the case for the prosecution, reviewing the details of the tragedy saying that the defendant travelled 300 miles to commit a crime. The prosecution proved the killing and read the case. Beach then opened the case for the defence by stating that it would be proved that the prisoner did not fire until he had placed his hand to his breast as if to draw a pistol which his son knew he always carried, which he had reason to suppose he would fire in consequence of his numerous threats.

NEW YORK, June 25.—The game of the billiard tournament was played this p.m. between Maurice Daly and Cyrille Dion. Daly won in 31 innings by a score of 300 to Dion's 250. The seventh and eighth games were played this evening, the contestants were John Perry and Albert Smith. The game was played in the Woodbury Club, and a panel of 300 ordered for to-morrow.

NEW YORK, June 25.—Prince Salama of Japan, who retired from the Annapolis Naval Academy a short time ago, is going to visit his mother in this city, and is expected to leave for Japan, but his physicians advise him not to undertake the journey.

WASHINGTON, June 25.—Lieut. Colonel George Foster, commanding the Pacific Squadron, reports a second attack by Sioux on June 18, on Beaverdam creek; loss one. The Sioux lost two killed and two wounded, and carried off several men wounded.

EUROPE.

LONDON, June 26.—A dispatch from the steamship Great Eastern says, "We hope to be at Harter's point in San Francisco on Wednesday noon. Fifty hundred and thirty-five nautical miles of cable were paid out."

The Irish papers contain particulars of a terrible fire at a fire in Dublin, on the night of the 7th June. About eleven o'clock a fire broke out in the Kildare street, and spread in Thomas street, one of the most densely populated parts of the city. Within an hour after the fire commenced, from twenty to thirty thousand persons had assembled in the neighborhood, their object being to assist in the suppression of the fire. The fire spread, and the police were powerless to maintain order; the mob tore the hose from the hydrant, and which they smashed. Captain Ingraham then had the great turn up, and a street engine (whether you best a man now and then) braving about his honesty peel your eye for a thief) Joe Evans, the mover of the second resolution, was let out of Her Majesty's metallic corp last summer by Judge Hayes with caution not to appear before him again; his indignant respectable partner and right hand bower of the meeting is and has been living in open shame for the last four years. This is no hypothesis, but ocular demonstration of the fact is witnessed by the whole camp. Such, I am sorry to say, with the leading spirits of that confab, the rest with few, very few exceptions, were chameleons, bunners, and suckers; the very few will at least have the satisfaction of swimming in excellent company. Nor was there a speech made. Nor was a vote at the meeting capable of making a speech! Orator Bob, one of the chameleons family, who expects to be the next candidate, has been practicing all winter before a row of empty bottles, which he addressed as the independent and intellectual constituents; he made the attempt but like on a former occasion utterly failed. Eloquence and drastic (that last word is borrowed from your contemporary) logousness are two different branches of oratory.

No, thank God, when I made that assertion as to my respectability (in a former letter) I qualified and confined that assertion to the personal knowledge of the respectable residents of Kootenay; I again reiterate that truth, and I defy any man or the conspiracy that exists here, to bring home any charge against my career in life that would call a blush to my cheek. Unwashed lies and slanderous insinuations are often uttered because they remain unrefuted, and those are often the best men whose characters have been injured by calumny. From early youth I have been taught to discriminate between right and wrong, honesty and truth, charity

Kootenay Correspondence.

KOOTENAY, May 20th, 1873.

EDITOR STANDARD.—It is scarcely necessary to mention the various concurring reasons which induce me again to correspond through the columns of your excellent paper, as I do not wish to engage in either warm or protracted discussion with any of your contemporary correspondents from this district over immaterial matters, were it not at the earnest solicitation of many of my best friends and residents of this district, who have allowed me to prevail over my judgment, and instead treat certain communications, memorials, and resolutions (sent from here and bearing upon my character) with that contempt which the subject from whom they emanate merit. It is with abhorrence and indignation that I again solicit space in your journal for this unvarnished and truthful exposition of the sayings, doings, and hypocritical workings of the Kootenay imbecile clique during the past winter. A lie will travel from here to Victoria while truth is pulling on its boots. Precious to the arrival of Mr. Robertson with the Kootenay mail, certain aspirants to gubernatorial honors, and others who are living in ease and luxury upon sinecures derived from the proceeds of labor and industry were in a state of feverish excitement, a crisis was expected, a smash up in our first memorable local Assembly, and a new election was anticipated. Our mail arrived about the 10th inst., and brought our files of the ever welcome STANDARD, which explained that the Mrs. Reach Ministry were unseated—Hon. Amor De Cosmos on the plane of glory—retracing the order of the day—saluted officers provincial—the Civil List Bill knocked overboard—Constable Ferney's discharge—"Ground Sluice" last production, &c., which caused the remaining grinders to look into the other end of the marrow bone. Now the aberrations of our mind, like the snow of the mountains, admit of some approach to calculation, but the most keen and experienced observers have often failed to tell what portion of the political orbit of aspirants and office-seekers may be occupied in scheming and knavish tricks—that nod of the head—that wink of the eye—that mesmeric pressure of the paw—the persuasion and plausibility of the tongue.

The times glitter and the specious men; Delude the most, low pry behind the scene.

THE AMPHIBIOUS SENSATIONAL DEMONSTRATION, JANUARY 15TH.

A private and spasmodic confab was held in a small room about ten feet square, (where the beer, wine, liquor and cigars are dispensed) to take into consideration the best and most plausible manner of gulling the public mind, and also of impressing upon the Executive Council the danger, inconvenience and absurdity of leaving sixty white men who are scattered over an area of one hundred and thirty miles (unprotected and liable to be pounced on by Blackfeet and Bruisers from over the border. John Bismarck, Esq., C.P., being unanimously appointed "cats paw" to the grinders went forth like a roaring lion with his budget of dirt and lies, and with that low deceit and cunning which he is known to be possessed of, pandering to the prejudices of unlettered minds, and scattered his venom like an Argus in herba among the unprincipled and easily gulled and over a few rag-tag and bob tail loafers, the cry and hubbub was now raised against "Ground Sluice," that his letters had such weight and influence with the Governor and Council as to cause poor Ferney his "pet constable" to be dismissed, and that unless he ("G.S.") was put down, down by hook or by crook, there would not be an officer left, that the district would lose about \$9,000 per year in salaries now in circulation, and other innumerable threats that are unnecessary to recapitulate.

Notices were now posted on the Court House and gin mills calling upon the residents of Kootenay to attend an indignation meeting to be held at Rev. Chisholm's, on Saturday January 15th, 6 o'clock p.m., where they were to take into consideration certain letters published in the VICTORIA STANDARD, signed "Ground Sluice," and bearing upon the official staff of this district. The crowd gathered punctually to the hall but no one was to be seen there at the time of the meeting, and the gentleman said when on his way to be suspended:

There is gatherings here of every sort, And gatherers go here from every part,— But why should I stir the mob, I say? The wide the worse drive on the cart.

After imbibing a second and third time (for although I was not there myself I had a feel among them taking notes) the Doctor was called to the chair; of course the little budget of dairy resolutions was all out and read previous to the gathering, and under the spiritual manifestations of some of Doc's best, but little brains the few and were then had, began to ascend out of their boots, and the resolutions went off like hot cakes. I imagine I hear you ask how many was at the meeting, were they the prominent and respectable men of the district? I answer that, excepting the two named above, a Russian from Kamtschatka, there was a mover and a seconder for every one of the six resolutions passed, and no more. Now according to their own statement the white population of this district is, (85) and that little clique of thirteen men had the cheek and presumption to constitute themselves the "vox populi" of Kootenay; neither were they the prominent, respectable, nor intellectual men of the district. The wealthiest, most respectable and prominent men in Kootenay refused to sign their memorial or have anything to do with their meeting, and many others ordered the man of "indignation and adultery" out of their cabins with his one sided arrangement. They got fifteen signatures to their memorial; if there are more they were forgotten, if not not recapitulate the resolutions, but inquiring minds would naturally infer that men who would not vouch for the honesty and respectability of their neighbor ought certainly to be honest and respectable themselves (whether you best a man now and then) braving about his honesty peel your eye for a thief) Joe Evans, the mover of the second resolution, was let out of Her Majesty's metallic corp last summer by Judge Hayes with caution not to appear before him again; his indignant respectable partner and right hand bower of the meeting is and has been living in open shame for the last four years. and the Returning Officer shall thereupon declare which of the Candidates has or have been elected by the show of hands.

Any Candidate, or voter on his behalf, may thereupon demand a poll, which he takes on, on day or days, and the Returning Officer shall, within twenty-four hours after the close of the poll, publicly declare the number polled for each candidate, and the vote or votes elected by the greatest number of voters.

The Returning Officer, after the declaration of the poll, shall retain the poll books until a Clerk shall be duly appointed, and shall deliver the same to him, together with and such Returning Officer or Clerk, respectively, permit any reasonable inspection thereof by any duly qualified voter, or his representative, and he will certify thereon, upon payment of twenty-five cents per hundred votes.

Every person who shall have presented himself for election, and who shall have been elected a Municipal Councillor, shall receive from the Municipal Treasury two hundred and fifty dollars towards the Municipal salary, and shall be entitled to be reimbursed by the Clerk of the Municipal Council, summarily, before the Justice of the Peace aforesaid.

In case of the death, bankruptcy, insolvency, resignation, or permanent absence for the space of three consecutive months, of any Municipal Councillor, the Clerk of the Municipal Council shall, upon the application of the Mayor, call a special election to fill the vacancy.
